

# Patient Assessment/Management – Trauma

LEVEL TESTED:

☐ FIRST RESPONDER

☐ EMT

Station #:

Scenario #:

Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

Test Site Location: \_\_\_\_\_

Candidate's Name: \_\_\_\_\_ #: \_\_\_\_\_ End Time: \_\_\_\_\_

Evaluator's Name: \_\_\_\_\_ Start Time: \_\_\_\_\_

Total Time: \_\_\_\_\_

|  |   | Points Possible | Points Awarded |
|--|---|-----------------|----------------|
| Takes, or verbalizes, body substance isolation precautions |   | 1               |                |
| <b>SCENE SIZE-UP</b>                                       |   |                 |                |
| Determines the scene is safe                               |   | 1               |                |
| Determines the mechanism of injury                         |   | 1               |                |
| Determines the number of patients                          |   | 1               |                |
| Requests additional help if necessary                      |   | 1               |                |
| Considers stabilization of spine                           |   | 1               |                |
| <b>INITIAL ASSESSMENT</b>                                  |   |                 |                |
| Verbalizes general impression of the patient               |   | 1               |                |
| Determines responsiveness/level of consciousness           |   | 1               |                |
| Determines chief complaint/apparent life threats           |   | 1               |                |
| Assess airway and breathing                                | Assessment  | 1               |                |
|  | Initiates appropriate oxygen therapy  | 1               |                |
|  | Assures adequate ventilation  | 1               |                |
|  | Injury management   | 1               |                |
| Assess circulation   | Assesses/controls major bleeding  | 1               |                |
|  | Assesses pulse  | 1               |                |
|  | Assesses skin (either color, temperature or condition)  | 1               |                |
| Identifies priority patients/makes transport decision      |   | 1               |                |
| <b>HISTORY AND PHYSICAL EXAMINATION/TRAUMA ASSESSMENT</b>  |   |                 |                |
| Selects appropriate assessment                             |   | 1               |                |
| Obtains baseline vital signs                               |   | 1               |                |
| Obtains S.A.M.P.L.E. history                               |   | 1               |                |
| <b>PHYSICAL EXAMINATION</b>                                |   |                 |                |
| Assess the head  | Inspects and palpates the scalp and ears  | 1               |                |
|  | Assesses the eyes   | 1               |                |
|  | Assesses the facial areas including oral and nasal areas  | 1               |                |
| Assess the neck  | Inspects and palpates the neck  | 1               |                |
|  | Assesses for JVD  | 1               |                |
|  | Assesses for tracheal deviation   | 1               |                |
| Assess the chest   | Inspects  | 1               |                |
|  | Palpates  | 1               |                |
|  | Auscultates   | 1               |                |
| Assess the abdomen/pelvis                                  | Assesses the abdomen  | 1               |                |
|  | Assesses the pelvis   | 1               |                |
|  | Verbalizes assessment of genitalia/perineum as needed   | 1               |                |
| Assess the extremities                                     | 1 point for each extremity<br>Includes inspection, palpation and assessment of motor sensory and circulatory function | 4               |                |
| Assess the posterior                                       | Assesses thorax   | 1               |                |
|  | Assesses lumbar   | 1               |                |
| Manages secondary injuries and wounds appropriately        |   | 1               |                |
| Verbalizes reassessment of the vital signs                 |   | 1               |                |
| <b>TOTAL:</b>  |   | <b>40</b>       |                |

**Critical Criteria:** (You must thoroughly explain your reason for checking any critical criteria on the back of this sheet)

- ☐ 111- Did not determine scene safety
- ☐ 112- Did not provide for spinal protection when indicated
- ☐ 113- Did not assess for and verbalize high concentration of oxygen, if indicated
- ☐ 114- Did not find, or manage, problems associated with airway, breathing, hemorrhage or shock (hypoperfusion)
- ☐ 115- Did not obtain detailed physical examination before assessing the airway, breathing and circulation
- ☐ 116- Did not verbalize appropriate intervention or verbalized inappropriate/unsafe treatment
- ☐ 117- Did not verbalize transporting patient within 10-minute time limit, if EMT candidate
- ☐ 118- Did not obtain 32 or more points
